01 - BRIEF

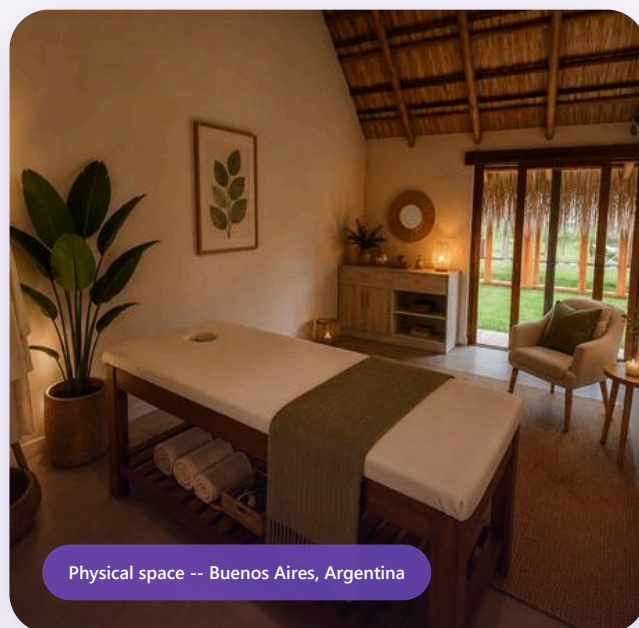

The Challenge

Build a digital presence that conveys warmth, depth and trust for a holistic center that fuses therapy, coaching and wellness.

Espacio MAT needed a site reflecting its integrative approach: the emotional subtlety of **Gestalt Psychology** and the action-oriented nature of **Ontological Coaching**.

The challenge was to translate that duality into a coherent visual language: organic yet structured, warm yet professional, mystical yet accessible.

The site also had to work as a conversion tool, guiding visitors from initial curiosity to direct contact via WhatsApp.

Physical space -- Buenos Aires, Argentina

A place designed for Transformation

Every detail of the physical space was captured and showcased through an infinite auto-scroll gallery that pauses on hover.

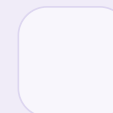

Horarios
semanales

ORA	LUNES	MARTES	MIÉRCOLES	JUEVES	VIERNES
8:00		YOGA		YOGA	
9:30					
7:30	CARDIODANCE		CARDIODANCE	MEDITACIÓN	
8:00		YOGA		YOGA	TALLER GRATUITO
8:15	FLEXI		FLEXI		

Color Palette

Each color was extracted directly from the client's mandala logo using oklch() for maximum perceptual accuracy. Purple evokes spiritual depth; orange, energy and action; green, growth and nature.

							
Deep Purple	Mid Purple	Orange Action	Forest Green	Magenta Creativity	Gold Wisdom	Lavender Background	Dark Text
#4A2D8A	#6B47B8	#C8680A	#3D6B4A	#7A2A5F	#B8901F	#F8F6FC	#1A1030

Typography System

Two serif families build a rich, humanist visual hierarchy -- moving away from the cold corporate sans-serif style to connect with the warmth of the therapeutic space.

DISPLAY / H1 -- PLAYFAIR DISPLAY 700

Espacio MAT

HEADINGS -- PLAYFAIR DISPLAY 600

Personal Transformation

BODY / PARAGRAPHS -- LORA REGULAR

A holistic fusion of Gestalt Psychology and Ontological Coaching.

UI / LABELS -- INTER 500

PHILOSOPHY - SERVICES - CONTACT - PROCESS

04 - THE JOURNEY

The Transformation Process

The site communicates the therapeutic process across three steps, from awareness to transformative action.

STEP 1

Awareness

PSYCHOTHERAPY PROCESS

Through Gestalt psychology, we guide clients to become aware of their patterns, emotions and beliefs.

STEP 2

Action Plan

COACHING PROCESS

We co-design a concrete action plan to move toward goals with clarity and purpose.

STEP 3

Transformation

DISCOVER YOUR MISSION

Integrate both processes to uncover your unique gifts and launch your life project.

05 - UI COMPONENTS

Services -- Accordion

An accordion reduces cognitive overload. Users explore each service at their own pace without feeling overwhelmed, reinforcing the calm the center aims to transmit.

● Gestalt Psychotherapy
Individual sessions focused on the here and now, awareness and emotional integration.

● Ontological Coaching

● Transformation Programme

● Group Workshops

● Project Mentoring

06 - THE TEAM

Who We Are

Team cards combine real photography with serif typography to convey closeness and professionalism.

Ma. Alejandra Torroija

Gestalt Psychologist - Ontological Coach

Agnes Landi

General Coordinator - Yoga Instructor

Marian Rossi

Yoga - Ayurvedic Massage

07 - COURSES AND WORKSHOPS

Learning Spaces

Course cards use a full-bleed image header for immediate visual impact with a smooth scale hover effect.

Human Leadership

Executive coaching, effective communication, conscious leadership and healthy organizational cultures.

Experiential Workshops

Tibetan bowls, meditation and body work for deep self-knowledge.

Weekly Classes

Regular practice sessions: Gestalt, conscious movement and group dynamics.

08 - DESIGN DECISIONS

Why These Choices?

100% Serif Typography

Playfair Display + Lora convey warmth and intellectual depth -- moving away from cold corporate style to connect with the therapeutic nature of the space.

Mandala-derived Palette

All 5 colors were extracted from the mandala logo using `oklch()` to ensure the site is a faithful visual extension of the brand's identity.

Linear Narrative Flow

Impact, understanding, team, process, services, conversion. Each section builds trust progressively, mirroring the therapeutic journey itself.

Accordion for Services

Reduces cognitive overload. Users explore at their own pace without feeling overwhelmed, reinforcing the sense of calm the center aims to transmit.

Single CTA: WhatsApp

Instead of a contact form, a WhatsApp button was chosen. For people seeking therapeutic support, direct conversation builds trust far more effectively.

Auto-scroll Gallery

An infinite loop carousel that pauses on hover. Showcases the physical space fluidly without requiring any interaction from the user.

09 - TECH STACK

Technologies Used

A modern stack focused on performance, SEO and long-term maintainability. Fully typed with TypeScript and optimised for Core Web Vitals.

● Next.js 15

● TypeScript

● Tailwind CSS v4

● Framer Motion

● Shadcn/UI

● Vercel

● Vercel Analytics

● Google Analytics

What Was Achieved

A website that balances emotion with function, art with conversion.
